EXPERIENCE

Frontend Software Engineer

Jan 2023 – Present

Dufuna Limited

London, UK

[CareSaas](#)

Jan 2024 – Present

- Collaborate in a cross-functional team to develop a SaaS product (CareSaas) tailored for care home management in the UK, utilizing JavaScript, React JS, TypeScript, and Agile methodologies.

[Dufuna Learning](#)

Feb 2023 – Dec 2023

- Optimized data fetching and resolved access issues, resulting in a 15% increase in scholar productivity.
- Refactored key components and pages, improving web application performance by 10%.
- utilized JavaScript, Vue JS, Vuex, Bootstrap CSS, and Agile methodologies.

Software Engineer

Aug 2022 – Jan 2023

MaibornWolff GmbH

Munich, Germany

[Ojemba](#)

Nov 2022 – Jan 2023

- Developed core components for the Ojemba Questionnaire flow, ensuring a seamless user experience with React JS, TypeScript, Tailwind CSS, AWS Amplify, and other relevant technologies.

[Kindl Pipe Burst Web App](#)

Aug 2022 – Nov 2022

- Implemented core features for the Kindl Pipe-Burst web app, significantly increasing worker productivity by 30%. These features included time logging, note taking, voice recordings, location tagging, media attachments, progress tracking, admin views, and PDF job summaries.
- Leveraged AWS Amplify services for data models, user authentication, and file storage, employing React JS, TypeScript, Chakra UI, and Agile methodologies.

PROJECTS

Movie Info | , JavaScript, React, Vue JS, TypeScript, TMDb API, Tailwind CSS, Bootstrap CSS, Git

- Developed a web application to display movie information using the TMDB API. Implemented two versions:
- React JS (Next JS) ([Demo](#)) : Vue JS (Nuxt JS) ([Demo](#))

Budget Buddy | JavaScript, React Native, Expo

- A mobile application built using React Native, Expo, and SQLite. It allows users to track their expenses conveniently on their mobile devices ([Demo](#))

Fake Store | , JavaScript, Angular JS, TypeScript, FakeStore API, Git

- A web application built using AngularJS. It allows users to browse and view products from the FakeStore API. ([Demo](#))

TECHNICAL SKILLS
